

SUMMER INTERNSHIP 2025-2026

NGNLab is pleased to offer **Summer Research Internships** to upcoming Pre-Final and Final Year Students.

May 19 to July 04, 2025

Last Date to Apply
09th May, 2025

Technology Domains

- 5G Advanced and 6G Communications
- Quantum Network Security
- Unmanned Aerial Vehicles (UAVs)
- Autonomous Vehicles
- Medical IoT

Collaborators

Benefits

- Opportunity for long-term association with NGNLab and publication in top international conferences and journals.
- Potential transition into a paid internship.
- Collaboration with professors from top international institutes.
- Eligibility for semester exchange programs with partner universities abroad.
- Strong boost to your resume for placements and higher studies.

Selected interns will have the opportunity to work on real-world research problems involving the design, exploration, and implementation of emerging technologies, protocols, frameworks, and testbeds. This internship promises to be a challenging and enriching experience aligned with current industry trends and academic advancements.
